

NITESH KUMAR SINGH

12+ Years
Experience

Senior Python Developer | Fintech, AI & Backend Systems

nkscoder@gmail.com | +91 7827495599 | New Delhi, India
Portfolio: <https://nkscoder.in> | Product: <https://statementiq.in>
LinkedIn: [linkedin.com/in/nitesh-kumar-singh-897437a2](https://www.linkedin.com/in/nitesh-kumar-singh-897437a2) | GitHub: github.com/nkscoder
Experience: 06/2016 - Present (12+ years Python development)

SUMMARY

Senior Python Developer with 12+ years of professional experience (2016-Present) building production fintech backends, bank statement intelligence, NBFC workflows, and AI-assisted products. Founder of StatementIQ (statementiq.in). Expert in Python, Django, PostgreSQL, Celery, RabbitMQ, Ray, Docker, and Linux deployments. Portfolio: nkscoder.in.

EXPERIENCE

Senior Python Developer

Quess Corp Ltd (Client: Airtel Payments Bank)

02/2025 - Present | New Delhi

Large-scale bank statement analysis and financial data processing

- Designed and implemented scalable pipelines for parsing, normalizing, and validating high-volume bank statements (PDF/CSV/XML).
- Built robust data models for transactions, parties, and metadata with accuracy and auditability.

Distributed processing and messaging

- Implemented distributed processing using Python, Pandas, Ray, and RabbitMQ for parallel ingestion and transformation.
- Optimized CPU/GPU utilization for compute-intensive workloads; implemented back-pressure and retry mechanisms.

Transaction intelligence and risk indicators

- Developed transaction indicators, flags, and rules for risk detection, anomaly identification, and categorization.
- Automated party extraction and normalization (sender/receiver/merchant) with deduplication and entity resolution.

Python and Django application development

- Built backend services using Python and Django/Django REST Framework for data ingestion, processing orchestration, and APIs.
- Designed efficient ORM queries, background jobs (Celery/RQ), and secure role-based access.
- Implemented file handling, async tasks, and reporting dashboards.

DevOps, deployment, and reliability

- Containerized services using Docker; orchestrated deployments with CI/CD pipelines.
- Managed environments, secrets, and configurations; implemented logging, monitoring, and alerting.
- Deployed and scaled services on Linux servers; optimized performance and reliability for production workloads.

TECHNICAL SKILLS

Python
Django
Django REST Framework
FastAPI
Pandas
REST APIs
GraphQL
PostgreSQL
MySQL
Celery
RabbitMQ
Ray
Docker
AWS EC2
GKE
ElasticSearch
Algolia
FCM
Google APIs
GitHub
Bitbucket
Jenkins
Jira
Postman
Linux
CentOS
HTML
JavaScript
jQuery
PHP
Laravel

OPERATING SYSTEM

Linux, CentOS, macOS, Windows

LANGUAGES

English, Hindi

EXPERIENCE

Senior Python Developer Voxturn Consulting Pvt. Ltd.

04/2023 - 02/2025 | Gurugram

JM Financial is an integrated and diversified financial services group providing investment banking, institutional equities, research, private equity, fixed income, syndication, and finance services.

Key Contributions

- Gathered and analyzed business and technical requirements from stakeholders.
- Designed and developed REST APIs using Python 3.11 and Django 4.2.
- Implemented server-side rendering and dynamic reports using Jinja2 templates.
- Built and optimized database schemas and queries using PostgreSQL.
- Worked on monolithic architecture applications with high data volume.
- Implemented authentication, authorization, and role-based access control.
- Integrated third-party services and internal financial systems.
- Performed performance optimization and bug fixing for production issues.
- Collaborated with QA and business teams for UAT and production releases.
- Managed code versioning and pull requests using Bitbucket; tracked tasks in Jira.

Deployment and Environment

- Deployed applications on Linux-based servers.
- Managed environment configurations for development, staging, and production.
- Handled database migrations, release deployments, and post-deployment monitoring.
- Worked closely with DevOps teams during release cycles.

PROJECTS

StatementIQ (Own Product)

Bank Statement Analyzer for India

2026 | <https://statementiq.in>

Own SaaS product for India: upload bank statement PDF/Excel, FinHealth score in plain English, Hinglish AI chat, and downloadable PDF report. Supports 15+ banks (HDFC, SBI, ICICI, Axis, Kotak). First report free, then paid unlock. Built end-to-end: parsing, scoring, reporting, auth, web app.

Stack: Python, Django/FastAPI, AI/LLM, PostgreSQL

Bank Statement Analysis Platform

06/2025 - Present

Bank Statement Ingestion and Transaction Risk Analysis

- Designed scalable backend systems for bank statement ingestion and large-scale financial transaction analysis.
- Built pipelines to extract, normalize, and deduplicate party entities from multi-source banking datasets.
- Implemented transaction indicators, risk flags, and party categorization for compliance and fraud detection.
- Developed RESTful APIs using Python and Django; Celery/RabbitMQ for async jobs; Ray for distributed compute.
- Optimized PostgreSQL schemas, indexes, and queries for high read/write throughput.

DevOps and Infrastructure

- Docker containerization, Linux deployments, CI/CD, logging, monitoring, worker auto-scaling.

EXPERIENCE

Python Developer

Scaledesk Web Studio Pvt. Ltd.

06/2016 - 03/2023 (7 years)

- Coordinated efficient large-scale software developments across fintech, hospitality, e-commerce, and media.
- Evaluated and improved development work of team members; training, constructive criticism, knowledge transfer.
- Planned and developed interfaces that simplified overall management and offered ease of use.
- Collaborated with fellow engineers to evaluate software and hardware interfaces.
- Adjusted design parameters to incorporate new features.
- Maintained organized workflow using Bitbucket and project management tools.
- Testing to identify bugs and technical issues before and after deploying.
- Documented bug reports, tickets, and code changes.

PROJECTS

JM Financial

06/2023 - 02/2025 | jmfl.com

Investment banking platform for institutional, corporate, and UHNW clients.

- Requirement gathering, REST APIs, Jinja2 reporting.

Python 3.11, Django 4.2, PostgreSQL, Jinja2, Bitbucket, Jira

Textile Stock India

06/2021 - 03/2023 | textilestockindia.com

Open marketplace for surplus textile stocklots; buy/sell for international clients.

- Python integrations, deployment, client communication, application updates.

Python 3.9, Django 3.0.8, Algolia, PostgreSQL, Gupshup, Razorpay

Ujjivan Bank

10/2020 - 06/2021

Bank employee surveys platform.

- Requirement gathering, database design, system design, APIs.

Python 3.5, Django 2, MySQL

EDUCATION

BCA

[Kalinga University Raipur](#)

2016 | Raipur

12th

[B.N. College Bhagalpur \(B.S.E. Board Bihar\)](#)

10th

[SGG High School, Banka \(B.S.E. Board Bihar\)](#)

CERTIFICATIONS

Java 2 Platform, Enterprise Edition (J2EE)

INTERESTS

Traveling, Listening Music, Playing Sports

PROJECTS

goStops

01/2020 - 10/2020 | [gostops.com](#)

Backpacker hostel chain - online room booking for youth tourism in India.

- APIs, requirement gathering, Jinja2 implementation.

Python 3.7.1, Django 2.2.8, MySQL, Bitbucket

Wave Resident App

06/2017 - 01/2020

Resident app for complaints, bills, polls, gate passes, events, and online payments.

- APIs, ERP integration, client communication, configuration updates.

Python 3.6, Django 2/3, MySQL, Oracle, Microservices, FCM, Paytm

Angel One / ANI News / Django Coupons

2016 - 2023 | [github.com/nkscoder/coupons](#)

Additional fintech and media delivery across client engagements.

Django plugins, REST APIs, production support
